the american dream of a free world will be defeated if christianity will be defeated in usa usa cannot survive unless the current perceptions of freedom and secularism undergo a drastic change there is freedom to promote almost everything except the christian truth ten commandments are banned but yoga is promoted at all levels this kind of selective discrimination against the truth will destroy the very foundations of any society strange motivations of the anti supernatural secularist lobby in the governmental institutions and their complicity in side lining christian faith cannot be ruled out thus ironically the undefeatable america tends to defeat itself in its rejection of christian truth and values usa made truth a lie and the lie a truth if the current trends of self hatred of christian faith by higher criticism and liberal theology and destruction of churches continue in 20 years usa will be overrun by the values and culture of hinduism and islam and usa will go down in history as the most powerful empire which had the best values in its custody since the days of its foundation but subjected itself to a silent death executed by its experts and enjoyed by its people who went after thrillers fantasies romances and other vain imaginations neglecting the truth remember it was the hatred to christian values that instigated the anti supernatural liberal theology from within and without the church which ultimately resulted

this book signifies a distinct separation of the ritual healing process in the zion christian church from traditional african medicine while also attempting to synthesize contemporary medical approaches with indigenous knowledge systems the zion christian church is recognized for its distinctive amalgamation of religious activities which include faith healing prophecy and significant pilgrimages particularly the easter pilgrimage to moria despite the church s emphasis on the christian identity within its faith healing practices some observers interpret various rituals and beliefs as syncretic consequently these readings have led to allegations that the church integrates aspects of african traditional medicine and witchcraft into its rituals this book utilizes the church as a case study to examine healing faith practices and rituals thereof within the larger framework and context of african independent churches this theology is used to help place the faith of patients and the importance of god s role as healer ahead of the healing rituals its unique theme driven interconnected chapters contain discussions around various practices encompassing purification and protection rituals as well as therapeutic worship consequently scholars in religious studies theology anthropology and history will find this book an important resource in understanding the role of healing rituals among african independent churches

this fourth instalment of harry redner s tetralogy on the history of civilization argues that intellectuals have a brilliant past a dubious present and possibly no future he contends that the philosophers of the seventeenth century laid the ground for the intellectuals of the eighteenth century the age of enlightenment they in turn promoted a fundamental transformation of human consciousness they literally intellectualized the world the outcome was the disenchantment of the world in all its cultural dimensions in art religion ethics politics and philosophy in this fascinating study redner demonstrates how secularization took the sting out of both the dread and promise of an afterlife and intellectuals learned to die without the hope of immortality popularized by philosophy and religion ultimately they produced the ideologies that generated the totalitarian regimes of the twentieth century which subsequently exterminated these intellectuals through mass murder on a scale never before experienced the book traces the sources of this fatal entanglement and goes on to examine the contemporary condition of intellectuals in america and the world wherein lies the future of the intellectuals redner suggest that in the present state of globalization dominated by technocrats experts and professionals their fate remains uncertain
